2. Community Garden Project - Location and updates

Jenna Huisman gave us an update on the community garden project. There were issues with the initially chosen location, including utilities in the ground, so another option was presented to the committee. It is the green space near École de la Seigneurie that is currently available. The committee members discussed the space and found it to be a good option. The next step is to canvass the neighbors to get their input. This will be done by January 26th. A form will be developed and then approved by Sébastien. This location would need to be approved by the municipality at its next meeting on February 4th.
