To whom it may concern,

This letter is to confirm that Eco East will partner with Genevieve Lajoie, Mayor of the City of Casselman, to execute a tree planting initiative that would see the introduction of approximately 3,000 native tree species across the United Counties of Prescott Russell (UCPR).

The benefits of planting trees are numerous including, but not limited to, improving air quality, reducing flooding, lowering urban heat island effect, and improving general wellness for residents.

This initiative will see trees planted in municipal areas including in community gardens, along trails, and within rest areas and parks to enhance the beauty and health of our region.

We are excited and eager to support this opportunity to leave a lasting legacy for our region that will benefit generations to come.

Sincerely,

Thaila Riden
Eco East President
